## Friday Night Speakers:

We have specialist guest speakers every week, covering topics such as: **earthquakes & volcanoes, native plants, birds, insects & reptiles, marine & freshwater biology and bush craft** as well as other science, ecology and engineering topics.

## During the School Term:

We run at least one weekend adventure or activity during each school term, where we get to know each other and explore new interests. This can include: **tramping, fossiling, caving, tree planting, kayaking and snorkelling.**

## Camp:

We generally plan a 4-5 day camp at Te Kauri Lodge each summer and winter during the school holidays. Te Kauri Lodge belongs to Junats and is located in a stunning scenic bush reserve near Kawhia, and even has its own natural history museum. Staying here is a wonderful and memorable experience.

## Membership cost:

\$75.00 per year for the whole family! (Younger children welcome with parental/caregiver supervision)

SCAN ME

We look forward to meeting you!
